ABDOMINAL EXAMS

- The day before your exam follow a low fat diet and avoid gas producing foods (please refer to the “food allowed and to avoid” guidelines listed below).
- The evening before your exam do NOT eat, drink, chew gum or smoke after 10 p.m. You will be fasting until your exam is completed.

GUIDELINES FOR A LOW FAT DIET:

FOODS ALLOWED: Fruit juices (except apple juice), coffee, tea, water, lean beef, fish, lamb, poultry, rice, pasta, fat-free broth-based soups, dry cereals (except bran products), most vegetables, most fruits, Jell-O, and sherbet. All food should be prepared without added fat and should not be fried.

FOODS TO AVOID: Whole milk, apple juice, beer, carbonated beverages, all fried foods, highly spiced foods, dried beans, potatoes, vegetables in the cabbage family, whole grain products, prunes, chocolate.
